Oklahoma City, OK 73169-6901

To All Digital En Route Supplement (DERS) Customers:

As a part of the Federal Aviation Administration consolidating processes and eliminating redundancies, Aeronautical Information Services is proposing to eliminate Standard Terminal Arrival Routes (STARs) and Standard Instrument Departure (SIDs) routes from the Digital En Route Supplement (DERS) after the 10 December 2015 effective date.

The files to be eliminated within the product are DP.DAT and STARS.DAT.

Similar information can be found within the Coded Instrument Flight Procedures (CIFP) via http://www.faa.gov/go/ais. The CIFP does not currently contain all published SID and STAR information. However, Aeronautical Information Services is targeting complete SID and STAR information inclusion for the CIFP within one year after DPs and STARs are removed from the DERS.

Please contact Aeronautical Information Services if you have any comments or concerns regarding the removal of the DP.DAT or STARS.DAT information from the Digital En Route Supplement (DERS). If you have any questions, please contact Brian Murphy at 301-427-5171 or by e-mail at Brian.M.Murphy@faa.gov.

Sincerely,

Gregory Yamamoto
