Subject Help

Mr. Babbitt, I live in Park Ridge and the New runway at O'Hare Airport, Run way 9L/27R goes right over my house. It is just terrible. I have lived over 19 years in Park Ridge and cannot remember when the Federal government has just said screw the people in Park Ridge and the adjoining suburbs. Our politicians in my mind are nothing but the new organized crime. Chicago's hot line is a big laugh, however I am not laughing. I hope that you can remember one thing about what it was that created these United States.

At this time the city of Chicago just keeps eating up more property and are doing exactly what they want, with FAA's Blessing.

May I remind you that I as a citizen for 71 years do vote. True I am one vote, but people that I talk to are listening and our day will come. Did you ever the words "For the people /By the people". Thank you for taking the time to read this, or will I just get a printed response from you .
