Dear Michael W MacMillan,

My name is John T Garner

I live on Runway 27L in Norridge

All this is busiest arrival runway at night. I have retired from Post office Since Dec of 2001 have had dry eyes which could be attributed to quality of air around here. I have been to eye doctors at University of Illinois chicago they said could environment were I live. You better explain to me how United and American can pay for airport if losing money. I am a stock holder in UAL. Security is very lax at perimeter of airports.

Sincerly Yours

John T Garner
