Jamaica NY 11434

AEA-03-10
8/8/2012

Bulletin: 2010-03
Subject: Wildlife Hazard Management Plan (WHMP) Review Checklist
Issue Date: February 24, 2010
Revised Date: August 8, 2012

Contact: Assigned Airport Certification Safety Inspector

Revision: **The Checklist was revised to highlight procedures for the review of the WHMP after a triggering event occurs. Please review highlighted changes to the checklist.**

Application: This bulletin is being sent to all Part 139 Certificated Airports required to implement a WHMP or who currently have a WHMP approved as part of their Airport Certification Manual (ACM).

Background: 14 CFR Part 139 section 337 (e) requires a Wildlife Hazard Management Plan when needed. The certificate holder must formulate and implement a plan using the wildlife hazard assessment as a basis to demonstrate effective airport mitigation and management of wildlife hazards to aviation. The checklist provides a standard format to ensure efficient and effective inspection of each subsection of the 139.337 regulation through the airport's required annual review of the WHMP and the annual Airport Certification Safety Inspection. The following checklist and the accompanying worksheet for the airport's annual review provide guidance for compliance with the requirements of 14 CFR 139.337.

Action Required: Please distribute to all appropriate Airport personnel.
