October 2004

Stall/Spin Seminar ASC of the Year

By Cheryl DeFilippo & Hugh Hardy
FAA Production Studio Staff

On Saturday, October 9, 2004 the FAA Production Studios was pleased to host the Annual Stall/Spin Seminar and our Chairman, Tom Evans, did not disappoint.

Tom rallied two of the most informative and experienced presenters in the field who shared the vast knowledge of that experience to an audience of pilots eager to learn.

Mr. Diego Alfonso, DPE & FAFI President, and the original Stall/Spin Clinic Chairman (Photo Top L), worked in concert with Mr. Lowell Hinchee of Foundation Flyers, Sarasota, FL (Photo Bottom L), to bring us this day of excellent presentations and demonstrations.

This is a duo you don't ever want to miss if you want to gain "first hand" the knowledge to help you master and control the ever "dark shadowed" stall/spin situation.

Obie Young, SPM FSDO-15, also took this opportunity to present the "2005 ASC of the Year" award formally to Diego Alfonso. It is truly a privilege to honor Diego with this award and he is a most deserving recipient.
"Congratulations Diego!!!"
