

## Background

Our attorneys also represent Aeronautical Center and tenant offices in employment-related actions before the Equal Employment Opportunity Commission and the Merit Systems Protection Board, as well as assist the local U.S. Attorney's office with personnel cases filed in U.S. District Court. Attorneys designated as ethics officials review confidential financial disclosure statements and provide ethics advice and training to Aeronautical Center and tenant organization employees.

Center Counsel attorneys review and advise on Privacy Act and FOIA requests for records on aircraft and airmen in systems of records maintained by on-site Flight Standards and Civil Aerospace Medical Institute offices. Attorneys also review garnishment actions issued on a payroll system covering over 64,000 FAA and DOT employees.
