

Ethics: Impact and Challenges (EIC)

COURSE NUMBER **FAA01248**

For information about this course, contact:
 FAA Program Manager
 (386) 446-7154

DESCRIPTION AND LEARNING STRATEGY

The discussions and activities in this workshop challenge participants to examine their own ethical behaviors in the face of rapid change, internal competition, and concern for stability while living in chaos; and to implement a risk analysis tool designed to support acting on ethical choices.

Through interactive lecture/discussion and case studies, participants will investigate several research based standards of ethical behavior in government, and develop a working definition of ethics in their own workplace. During the workshop session, participants will practice the use of a risk analysis model and apply it to ethical dilemmas which they face as individuals and/or as work group members. The activities will support participants in minimizing the risks associated with ethical behavior.

If time permits, participants will practice skills that encourage others to apply the risk assessment model, and to more consistently make highly ethical choices in the workplace.

OBJECTIVES

- Consciously assess their own behavior against the highest standards of ethics.
- Practice implementation strategies for minimizing associated risks.
- Plan to increase the consistency of their own ethical behavior.
- Practice supporting others in making and acting on highly ethical choices. (Lab only).

KEY COMPETENCIES

- | | |
