

## 12C9 Core Airports Throughput

### Description

Increase throughput at core airports by 12 percent to reduce delays by 27 percent using a 2009 operations baseline. FY 2012 Target: Finalize metric and Target

### Commentary (06/2012)

A cross-Agency working group has been established to further define this metric and target, with representation from APL, ATO, ARP, and ANG. Alternative metrics have been defined and baselined, and a recommended metric was presented to the Performance Subcommittee at the April monthly meeting. Targets are currently being proposed.
