

12F2 GA Replacement Fuel

Description

A replacement fuel for leaded aviation gasoline is available by 2018 that is usable by most general aviation aircraft. FY 2012 Target: 1 milestone

Commentary (06/2012)

As of June 30, the draft action plan was submitted to AIR-1 for review. The next milestone is to submit the draft action plan to AVS for internal review by July 31.
