

## **Senegal**

### **Notice**

All travelers are advised to exercise a high degree of caution in Senegal because of the risk of criminal activity, kidnapping and civil unrest. You should avoid large gatherings and political rallies as they may turn violent. Likely places for demonstrations, including government buildings and other public areas, should be avoided.

There is a risk of retaliatory attacks against Western targets in Senegal following the French intervention in the conflict in Mali in January 2013. Pay close attention to your personal security and monitor the media for information about possible new safety or security risks.
