Memorandum

Date: March 25, 2008
From: Manager, FLL ATCT
To: All FLL Airport Tenants
Subject: **Runway Safety Action Team - Airport Safety Survey**

This survey was developed to request feedback and recommendations from airport users about any locations or conditions at the airport that may be confusing or considered hazardous, and may need corrective actions to avoid potential incidents. Safety is our #1 priority and we know you feel the same way.

Survey

This survey is intended for anyone who operates at the Ft. Lauderdale International Airport on the Air Operations Area (AOA). Please provide your feedback and / or recommendations to the e-mail address listed below. All suggestions for safety enhancements will be considered.

Suggestions may include but not limited to:

- Signage, markings, and lighting addition/deletion
- Adding/eliminating/ straightening a taxiway
- Procedural or rule changes
- Improved/enhanced training
- Improved equipment
- Areas on the airfield that you think could be improved

Please take a minute and send us your ideas on this subject so we can work together to avoid potential incidents. Thank you for your participation in this survey.

Robert Berlucchi, Manager, FLL ATCT
