of Transportation
**Federal Aviation
Administration**

800 Independence Ave, SW
Washington, DC 20591

Dear AIXM 5 User Group Attendee:

As many of you know the United States Federal Aviation Administration (FAA) and EUROCONTROL have been working with the global AIS community to develop a strategy and roadmap for Aeronautical Information Management (AIM). A critical element of this agreement is worldwide collaboration on Aeronautical Information Management (AIM): including the continued evolution of the Aeronautical Information Exchange Model (AIXM).

In November 2006 we jointly published AIXM 5 Release Candidate 1. We would like to invite you to participate in the 2007 AIXM 5 User Group meeting and AIXM Technical Training Class to be held in Washington, DC USA on February 27 through March 1, 2007. The User Group meeting will introduce AIXM 5 and include practical demonstrations of how AIXM can be used to enable global Aeronautical Information Management. In addition, on March 1, 2007 the AIXM design team will provide in depth AIXM training.

Your participation in the AIXM 5 User Group meeting would be most welcome. For more information and to register for the meeting please visit www.aixm.aero.

Sincerely,

Nancy B. Kalinowski
Director, Airspace and AIM
