Subject: Cancellation of ATO Directives

---

In meeting the FAA long-term goal of keeping directives current, we are requesting cancellation of the below listed orders for one or more of the following reasons:

1. Multiple realignments of the organization have rendered the directive irrelevant because the referenced organizations no longer exist.
2. The program implemented in the policy no longer exists, or has been superseded by others.
3. There are no personnel or organizations that currently use these directives, so none are impacted by their cancellation.
4. There are no plans which we foresee that would require their use in the future.
