

COMPUTER SPECIALIST

Computer Specialist:

Join a team of Information Technology (IT) professionals in a challenging, ever-changing environment. Enjoy learning opportunities, problem solving, and troubleshooting in the areas of Novell, Windows 98/2000NT, LINUX, and CISCO. IT opportunities exist in:

→ Networking → Web Development → Desk top configuration/support

Qualification Requirements:

- Entry level positions require (1) at least three years of computer related work experience that provided a basic knowledge of data processing functions and an understanding of the stages required to automate a work process; *or* (2) a bachelor's degree with major study in computer science, information science, information systems management, mathematics, statistics, operations research or engineering, or course work equivalent to a major in the computer field.
- Higher level positions require additional specialized experience or graduate level education. Read each vacancy announcement carefully for the *specific* qualification requirements of the position.
- You must be a United States citizen.

For more information about qualifications, check the Office of Personnel Management (OPM) Web site at <http://www.opm.gov/qualifications> under Administrative and Management Positions.

Hiring Avenues:

Jobs are advertised on the FAA Web site at <http://jobs.faa.gov> and are posted as vacancies occur. Special on-the-spot hiring programs, including the Outstanding Scholar Program, People with Disabilities Program and the Veterans Readjustment Appointment Authority, may also be used to fill these positions.
