Federal Aviation Administration

CHARTING NOTICE

Modified Date: November 6, 2026-revised to add Charted Visual Flight Procedures (CVFP) Procedural dates and Amendment numbers

Modified Date: October 27, 2026-revised estimated date for correction

Date: October 8, 2026

To: Users of the (Digital Terminal Procedures Publication) d-TPP_Metafile.xml

From: Aeronautical Information Services

Subject: Procedural Dates Missing from d-TPP Metafile XML

Beginning with the August 6, 2026 (2608) edition of the d-TPP XML, procedural date entries were inadvertently omitted for non-procedural terminal chart updates.

Background: The procedure date ("**amdtdate"**) field is updated each cycle for terminal charts that have at least one procedural change.

Procedural changes include:

- New instrument flight procedures
- Procedure amendments
- PNOTAMs

Currently, for procedural changes, the **amdtdate** field is updating correctly in the XML.

Miscellaneous chart changes, which include changes to non-procedural aeronautical information, do not trigger a change to the **amdtdate** field in the XML. Aeronautical Information Services discovered that since August 6th, miscellaneous chart changes caused the inadvertent deletion of values from the **amdtdate** field.

The root cause of the issue has been identified, and the estimated date for correction is December 24, 2026 (2613).

View Aeronautical Information Services Safety Alerts and Charting Notices at (https://www.faa.gov/air_traffic/flight_info/aeronav/safety_alerts/) for awareness of chart and data corrections. A page subscription service is available.

For awareness or participation in a public forum to identify issues concerning safety and usefulness of aeronautical charts and flight information products/services, and discuss change proposals to specifications and methodologies visit Aeronautical Charting Meeting (Chart Group) at (https://www.faa.gov/air_traffic/flight_info/aeronav/acf/). A page subscription service is available.

For aeronautical data or charting inquiries visit the Aeronautical Information Portal (https://nfdc.faa.gov/nfdcApps/controllers/PublicSecurity/nfdcLogin)

Procedural Dates (“**amdtdate”)** and Amendment numbers (**“amdtnum”**) for Charted Visual Flight Procedures (CVFP) will now be included in the XML.

If you have further questions, please submit an inquiry on the Aeronautical Information Portal website shown in footer.
