This schedule is for major and minor revisions. **Bold text** denotes book; regular text denotes Enroute Change Notice (ECN) or Terminal Change Notice (TCN); an asterisk (*) indicates date adjustment due to holiday.

(1) All aeronautical data changes in Germany must be submitted by 56 days prior to the effective date. For example, the cut-off date for a 20 March publication for changes in Germany would be close of business 23 January.

DEFINITION OF MAJOR AND MINOR REVISIONS

Major Revisions: Changes which require the addition of, or moving of tracks, fixes, NAVAIDS, which may necessitate shifting the extent of the planview and/or changing the charting scale from which the original procedure was drawn on. For example adding/moving initial approach segments, SID/STAR transitions, moving missed approach tracks, or adding taxiways/overruns/runways within airport sketches/diagrams.

Minor Revisions: Changes which are textual only in nature and do not require the adjustment of tracks, fixes, symbology, chart scale, or planview extent. For example changing the missed approach instructions, changing/adding a caution note, changing the departure/arrival route description to reflect a transition name change.
