## CHARTING NOTICE

Date: June 3, 2026

To: Users of: d-TPP\_Metafile.xml (XML)

From: Aeronautical Information Services

Subject: XML modifications

---

---

The XML effective 11JUN26 (2606) had some unintended changes that resulted in parsing problems for some users. Those changes included:

- In the header info, the word cycle was capitalized to Cycle.
- The tags changed from double to single, `<chartseq></chartseq>` to `<chartseq>`

We are working to undo these changes for the 09JUL26 XML.

- The word Cycle will change back to lowercase as cycle.
- The tags will be double instead of single, i.e. `<chart_code></chart_code>`
  - There is one exception to this. In the previous version of all XMLs, the tag `<faanfd18>` was always single. It will be double to be consistent with all other tags.

Please see the currently published Charting Notice, TERM 26-01A. This Charting Notice describes the intended CODE change from STAR to STR.
