

U.S. Department
of Transportation
**Federal Aviation
Administration**

MAR 15 2016

CDR Ryan Bernachi
Commanding Officer, Navy Flight Demonstration Squadron
390 San Carlos Road Suite A Pensacola, FL 32508-5008

Dear CDR Bernachi:

Based on approval by the Department of the Navy, the Blue Angels 2016 flight demonstration maneuvers package is acceptable to the Federal Aviation Administration (FAA). FAA acceptance of the Blue Angels maneuvers package should not be construed as a special waiver, exemption or exception to the guidelines and provisions of any air show Certificate of Waiver, FAA Form 7711-1 (CoW) FAA acceptance is confirmation that the maneuvers, as presented in the 2016 maneuvers manual, meet FAA guidelines and special provisions. FAA acceptance advises FAA field personnel that each maneuver is acceptable to the FAA.

With the exception of flights in the transition area, flight less than 500 feet AGL over spectators, occupied structures, roads, vehicles, or vessels are not authorized. All flights below 500 feet AGL during ingress and egress to the aerobatic box must be approved by the Flight Standards District Office (FSDO) Inspector-In-Charge (IIC) of the air show and be discussed directly with that FAA inspector by you or your team representative during the winter meetings.

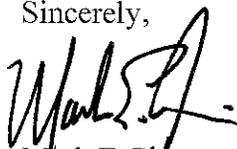

Non-aerobatic flyovers (e.g. stadiums, parades, funeral) are authorized at or above 500 feet above the highest obstacle and 1,000 feet either side of the intended flightpath when a flyover CoW is issued. A DD Form 2535 must be submitted to the jurisdictional FSDO for all requested flyovers.

We will make the 2015 Blue Angel's maneuvers package available to our Flight Standards Regional and District Offices. This package will also be used when conducting site feasibility determinations and airspace requirements for the future demonstrations and completion of DD Form 2535.

This office is available at your convenience to answer any questions you may have concerning FAA aviation event policies. Sue Gardner, FAA National Aviation Event Specialist (NAES), can be reached by telephone at (630) 880-5834 or via email at sue.gardner@faa.gov.

We appreciate your cooperation and look forward to working with you and your entire team in assuring safety. We wish you a safe season in 2016.

Sincerely,
