1. **DBE Office Online Reporting System (DOORS).**  
(Under Title VI, 49 CFR § 26 and 23, Disadvantaged Business Enterprise (DBE) and Airport Concession DBE (ACDBE) Programs) The purpose of the system is to track and automate DBE and ACDBE accomplishment report data and information, create unique data and information reports, provide users with an easier method of submitting required reports, reduce report errors, allow automatic calculations of data, and eliminate the need for submission of paper copy. Specifically for FAA, the application simplifies accomplishment data aggregation, allows for unique report generation, and simplifies trend analysis.

The FAA uses DOORS data and information to submit annual statistical reports to DOT and OST identifying airport grant recipients' total annual dollars of prime and subcontracts awarded, DBE prime and subcontracts awarded, total annual concession revenue and total annual DBE concession revenue. The FAA also uses data and information in DOORS to respond to Freedom of Information Action (FOIA) requests, legal hearings and other legal matters pertaining to the DBE and ACDBE Programs. The functional area that these electronic records support is 1400 Civil Rights Programs – 10 Maintaining the history records in DOORS is imperative.

The system automatically totals and calculates and produces the data and information inputs as different types of reports either on the official Uniform Forms in PDF, spreadsheet or HTML accessibility formats. In addition, the system sends automatic email notification messages to airport users and FAA DBE Program Specialists when data and information is added or edited.

The attached DBE and ACDBE uniform accomplishment forms describe the content, purpose, and function of the records in this application. The legal basis for DOORS may be found at http://osdbu.dot.gov/DBEProgram/index.cfm

The DOORS application currently contains 1,320 airport grant recipient users and 15 FAA DBE Program administration users. The records contained in DOORS span from FY-2004 to FY-2008 and ongoing. There is no privacy information contained in DOORS.

**Explanation of the Disadvantaged Business Enterprise (DBE) Program.**

The U.S. Department of Transportation's DBE program provides a vehicle for increasing the participation by minority business enterprises (MBEs) in state and local government procurement. DOT DBE regulations require state and local transportation agencies that receive DOT financial assistance, to establish goals for the participation of DBEs. Each DOT-assisted State and local transportation agency is required to establish annual DBE goals, and review the scopes of anticipated large prime
contracts throughout the year and establish contract-specific DBE subcontracting goals.

Three major DOT operating administrations are involved in the DBE program, Federal Highway Administration (FHWA), the Federal Aviation Administration (FAA) and the Federal Transit Administration (FTA). The DOORS application is specific to FAA.

**DBE Program Requirements for Airport Grant Recipients**

The FAA Airports Division awards grants to U.S. airports annually under the Airport Improvement Program (AIP) http://www.faa.gov/airports_airtraffic/airports/resources/publications/orders/media/ap0_5100_38c.pdf. There are several grant assurances that an airport receiving an AIP grant must abide by, one of which is compliance with the DBE program requirements.

The DBE Program requires U.S. airports that receive AIP grants and award contracts of $250,000 or more (including construction, professional services and some equipment) within a fiscal year, must submit a DBE program and goals to the FAA on August 1 prior to the upcoming fiscal year in which the grant is being awarded. The airport must also submit DBE accomplishments pertaining to that goal on December 1 of the following fiscal year (for example, a goal submitted for FY-10 on August 1, 2009, must have an accomplishment pertaining to that goal submitted on December 1, 2010).

In addition, U.S. primary airports (airports having 10,000 or more enplanements annually) that have annual concession revenue in excess of $200,000 for car rental concessions and $200,000 for other than car rental concessions, are required to have an ACDBE program and submit goals and accomplishments to the FAA. Separate goals are required for car rental and other than car rental concessions.

**a. INPUTS** - are made electronically by airports or FAA DBE Program Specialists who have an approved user account. Inputs replace the official paper copy submission of the forms.

The titles of the official forms are

1) Uniform Report of DBE Awards or Commitments and Payments
2) Uniform Report of ACDBE Participation

**Disposition:** Temporarily maintained by the system as a reference copy, if used. Cutoff annually on September 1. Destroy 5 years after cut off.

**b. INPUTS** - are made electronically by airports or FAA DBE Program Specialists who have an approved user account. Inputs replace paper copy submission of the forms. These are FAA created forms with no legal basis.
3) Report of Certified ACDBE Form

Disposition. TEMPORARY. Maintained by the system as a reference copy, if used. Cutoff annually on September 1. Destroy 5 years after cut off.

b) DBE and ACDBE Accomplishment Data (Master file) including

1) FAA-Assisted Contracts Accomplishments
   a. **DBE Awards** - AIP grant dollars construction, professional services and equipment contractors, subcontractors and DBE contractors and sub-contractors participation. Includes date submitted, fiscal year being reported, AIP grant number, name and address of airport, and name and phone number of person submitting the report. Maintained by the system as a reference for U.S. airport grant recipients, FAA DBE Program Specialists, Department of Transportation (DOT) and the Office of the Secretary (OST)

   Disposition: TEMPORARY. Cutoff annually on September 1. Destroy 10 years after cut off.

   b. **DBE Contractors** - Description of DBE firms (name, address, phone number, type of project work, dollar amount of project work and race or gender of firm) that were used by the airport’s contractors and contractors on projects

   Disposition: TEMPORARY. Maintained by the system as a reference copy. Cutoff annually on September 1. Destroy 5 years after cut off.

2) Airport Concessions Accomplishments.
   a. **ACDBE Participation** - Annual accomplishment revenue or gross receipts generated by prime and sub-concessions, management contracts, goods, services and car rental concession firms. Includes date submitted, fiscal year being reported, name and address of airport, and name and phone number of person submitting the report. Maintained by the system as a reference for U.S. airport grant recipients, FAA DBE Program Specialists Department of Transportation (DOT) and the Office of the Secretary (OST)
