

Long Beach AEG Duties and responsibilities-

The Long Beach Aircraft Evaluation Group (LGB AEG) serves the Northwest Mountain Region Flight Standards Division and is co-located with the Los Angeles Aircraft Certification Office. We provide technical services to Large Transport Aircraft Certification Offices. We participate in aircraft certification programs and projects for selected 14 CFR Part 25 airplanes meeting the Federal Aviation Regulations. We provide operational perspective and suitability determinations during the aircraft certification process.

Our responsibilities include:

- Initial Master Minimum Equipment Lists (MMEL) & revisions
- Technical assistance for the review of aircraft flight manuals and related supplements
- Participation on Airworthiness Directives (AD) boards
- Review and accept initial and revised Instructions for Continued Airworthiness (ICA)

We lead efforts on:

- Flight Standardization Boards (FSB)
- Flight Operations Evaluation Boards (FOEB)
- Maintenance Review Boards (MRB)
