of Transportation

**Federal Aviation
Administration**

FEB 15 2011

Office of the Administrator

800 Independence Ave., S.W.
Washington, D.C. 20591

The Honorable Joseph R. Biden
President of the Senate
Washington, DC 20510

Dear Mr. President:

The enclosed report for Fiscal Year (FY) 2010 is provided in response to Section 202 of the Federal Aviation Administration Authorization Act of 1994 (P.L. 103-305), which requires the Administrator to submit to Congress a list of foreign aviation authorities to which the Administrator provided services in the preceding fiscal year. The list specifies the dollar value of such services and any reimbursement received for such services.

Please note that as FAA requires prepayment for services to be provided, some collections earned in FY 2010 are for services to be rendered in FY 2011.

An identical letter has been sent to the Speaker of the House of Representatives.

Sincerely,

J. Randolph Babbitt
Administrator

Enclosure

Assistance Provided to Foreign Aviation
Authorities for FY 2010

Washington, DC 20591

February 2011

**Report of the
Federal Aviation Administration
to the United States Congress
Pursuant to Section 202
of Public Law 103-305**

ASSISTANCE PROVIDED TO FOREIGN AVIATION AUTHORITIES
BY THE FEDERAL AVIATION ADMINISTRATION (FAA)
FOR FISCAL YEAR 2010

INTRODUCTION

This report is provided to Congress in response to Section 202 of the Federal Aviation Administration Authorization Act of 1994 (P.L. 103-305), which requires the Administrator to submit to Congress a list of the foreign aviation authorities to which the Administrator provided services under this subsection during the preceding fiscal year. This list specifies the dollar value of such services, the amount of potential reimbursement that was waived, and any reimbursement received for such services. As FAA requires prepayment for services to be provided, some collections earned in Fiscal Year (FY) 2010 are for services to be rendered in FY 2011. In addition, some of the services provided by the FAA in FY 2010 were collected in a prior fiscal year.

In FY 2010, the Federal Aviation Administration (FAA) provided approximately \$9.0 million in assistance, of which \$2.5 million was waived. As provided in the Act, reimbursement was waived when the Administrator determined that providing services would promote aviation safety. When evaluating a foreign government's request for a waiver of reimbursement, the FAA takes into account the number of U.S. citizens traveling to that country, the number and frequency of American flag air carriers operating into that country, and the need for improved aviation safety standards in that country.

The majority of the waived reimbursement in FY 2010 was a result of the FAA's assistance to Haiti in the aftermath of the earthquake that occurred near Port-au-Prince in January 2010. At the request of the Haitian government, the FAA provided technical personnel and mobile air traffic control facilities that were instrumental to re-opening Haitian airspace and bringing in relief supplies, medical personnel, and ultimately resuming commercial flights.

BACKGROUND

The FAA's technical assistance programs facilitate delivery of FAA experts and knowledge to foreign civil aviation authorities around the world. Agreements for the provision of services are conducted on a government-to-government basis, generally between the FAA and the foreign civil aviation authority. The recipient country generally reimburses the FAA for the cost of the technical assistance.

The FAA has nearly 400 technical assistance agreements with other countries. These agreements cover the entire spectrum of civil aviation activities and include the following:

Training: Each year, the FAA arranges training for international officials from more than 50 countries at the FAA Academy and at U.S. industry and academic institutions.

Flight Inspection: FAA flight inspection crews inspect and calibrate navigational aids worldwide.

Equipment: The FAA supplies other countries with new and used equipment common to the FAA National Airspace System.

Spare Parts and Repair Services: Civil aviation authorities are encouraged to obtain spare parts and repair of equipment through the FAA.

Cooperative Agreements: Cooperative agreements are arranged with foreign aviation authorities to exchange technical information and pursue joint technical projects, including R&D activities.

In-country Technical Assistance: FAA experts work with other countries to improve aviation safety. Experts are dispatched on short-term assignments to address specific problems and conduct surveys, studies, etc. Long-term assistance is provided by civil aviation assistance groups comprised of resident FAA advisers who assist in the development of a country's aviation system. The FAA has provided experts in the following areas:

- Systems design and planning
- Equipment installation and maintenance
- Airworthiness maintenance
- Type certification
- Anti-terrorism (security) programs
- Air traffic control procedures
- Airport operations and standards
