

nonprofit organizations, including loans for economic injury. The *Coronavirus Preparedness and Response Supplemental Appropriations Act, 2020*, Public Law 116–123 (March 6, 2020), amended the Small Business Act to make economic injury resulting from the current coronavirus pandemic (COVID–19) a disaster that is eligible for assistance under section 7(b) of the Small Business Act. The assistance available includes an “advance” on the loan (that does not have to be repaid) in an amount up to \$10,000. To expedite the processing time and provide immediate financial assistance, SBA obtained emergency approval from OMB to collect information from small businesses and nonprofit organizations seeking relief from the economic conditions created by the COVID–19 emergency. This approval expires on September 30, 2020. SBA will be requesting an extension of this approval to enable the agency to continue collecting the information necessary to process applications for assistance.

(a) Solicitation of Public Comments

SBA is requesting comments on (i) Whether the collection of information is necessary for the agency to properly perform its functions; (ii) whether the burden estimates are accurate; (iii) whether there are ways to minimize the burden, including through the use of automated techniques or other forms of information technology; and (iv) whether there are ways to enhance the quality, utility, and clarity of the information.

(b) Summary of Information Collection

The information requested includes business formation type and date; taxpayer’s identification number; number of employees; information about owners, including their criminal history, and suspensions and debarments.

(ii) Form 3502—Economic Injury Disaster Loan Supporting Information.

SUPPLEMENTARY INFORMATION:

Title: Federal-Aid Highway Construction Equal Employment Opportunity.

Background: Title 23, Part 140(a), requires the FHWA to ensure equal opportunity regarding contractors' employment practices on Federal-aid highway projects. To carry out this requirement, the contractors must submit employment workforce data to the State Transportation Agencies

(STAs) on all work being performed on Federal-aid contracts during all or any part of the last payroll period preceding the end of July. This report provides the employment workforce data on these contracts and includes the number of minorities, women, and non-minorities in specific highway construction job categories. This information is reported on Form PR-1391, Federal-Aid Highway Construction Contractors Summary of Employment Data. The statute also requires the STAs to submit a report to the FHWA summarizing the data entered on the PR-1391 forms. This summary data is provided on Form PR-1392, Federal-Aid Highway Construction Contractors Summary of Employment Data. The STAs and FHWA use this data to identify patterns and trends of employment in the highway construction industry, and to determine the adequacy and impact of the STA's and FHWA's contract compliance and on-the-job (OJT) training programs. The STAs use this information to monitor the contractors-employment and training of minorities and women in the traditional highway construction crafts. Additionally, the data is used by FHWA to provide summarization, trend analyses to Congress, DOT, and FHWA officials as well as others who request information relating to the Federal-aid highway construction EEO program. The information is also used in making decisions regarding resource allocation; program emphasis; marketing and promotion activities; training; and compliance efforts.

Respondents: 11,077 annual respondents for form PR-1391, and 53 STAs and Territory annual respondents for Form PR-1392 that, total of 11,130.

Frequency: Annually.

Estimated Average Burden per Response: FHWA estimates it takes 30 minutes for Federal-aid contractors to complete and submit Form PR-1391 and 8 hours for STAs to complete and submit Form PR-1392.

Estimated Total Amount Burden Hours: Form PR-1391—5,539 hours per year; Form PR-1392—416 hours per year, total of 5,955 hours annually.

Public Comments Invited: You are asked to comment on any aspect of this information collection, including: (1) Whether the proposed collection is necessary for the FHWA's performance; (2) the accuracy of the estimated burdens; (3) ways for the FHWA to enhance the quality, usefulness, and clarity of the collected information; and (4) ways that the burden could be minimized, including the use of electronic technology, without reducing the quality of the collected information.
