Subject: FY10 Reimbursable Course Price Catalog

Please find enclosed the FY10 Reimbursable Course Price Catalog. The courses listed and their prices will be effective October 1, 2009. In accordance with DOT/FAA Order 2500.41C, Reimbursement for Cost of Training Non-FAA Personnel, dated July 27, 1982, we are required to review our prices annually and recoup any costs for services provided outside the FAA.

The prices published in the catalog apply to non-FAA students from other government agencies, industry, or international, who fill a quota of seats in classes scheduled for FAA delivery. As such, we have made every effort to ensure that only the costs associated with delivery of a single class iteration has been passed on to this customer. In our ongoing effort to stabilize prices from year to year, we are implementing use of course standards as a basis for the tuition. Previous pricing methodology has included variable costs such as major revisions or substantial staff training costs causing sporadic change in prices from year to year. While there may be some increases and decreases in FY10's catalog prices, it is our expectation that implementation of course standards will provide the stability we need to provide to our non-FAA customer, and still recover the cost of training.

In accordance with Notice 2500.79, Advance Payment Requirements for Reimbursable Agreements with Non-Federal Entities (Public), all enrollments of non-federal students shall include advance payment of tuition.

The catalog may also be found on the FAA Academy intranet on the Training Catalog page. Any updates throughout the fiscal year will be posted to that site. Any questions may be directed to the Financial Management Branch (AMA-110) at (405) 954-5870. Thank you for your continued support.

FY10
REIMBURSABLE COURSE PRICE CATALOG

FOREWORD

The prices published in this catalog are based on the standard hours and resources required to deliver a single iteration of the FAA Academy's planned resident training at the Mike Monroney Aeronautical Center and the Center for Management & Executive Leadership in Palm Coast Florida. Additionally, prices have been published for the Research & Special Programs Administration's Aircraft Accident Investigations training program. Non-FAA students may enroll in these courses as slots are available. In this context, only those costs related to the single course delivery are passed to the customer. In addition to the base, and in accordance with FAA Order 2500.35C, the agency has established administrative overhead rates. In the case of courses delivered at the Mike Monroney Aeronautical Center, that rate is 18%. Courses delivered at CMEL are assessed an overhead rate of 8.95%.

The individual training divisions may be contacted if you wish to arrange training for delivery exclusively to your group. In this context, we are required to recoup our full costs in accordance with DOT/FAA order 2500.41C, Reimbursement for Costs of Training Non-FAA Personnel, dated 7/27/82. Prices will be calculated for each unique delivery setting.
