SXC Commercial Spaceflight Operations Curaçao

February 2014

Where is Curaçao?

February 2014

Why Curaçao?

1. Suits current developmental concepts (SpaceShip 2 & Lynx)
 - Weather & Hurricanes
 - Safety, Air Space & VG 2hr RWY Requirement
2. Well equipped infrastructure
 - Mature Tourist Industry
 - Perfectly suited Airport
3. Growth Potential
 - Vicinity of Equator
4. Ideal Strategic Location
 - North & South America – Europe
 - ITAR issues
5. Healthy Political & Investment Climate

February 2014

Our Vision

Exponential Growth in Technological Developments

1996

2013

2010

Soon commercial spaceflight operations will experience the same developments...

February 2014

When Dreams Become Reality

When technological developments make dreams close to reality.....

...When mankind is about to take the next step.....

When the private sector is to make Commercial Spaceflight accessible to people.....

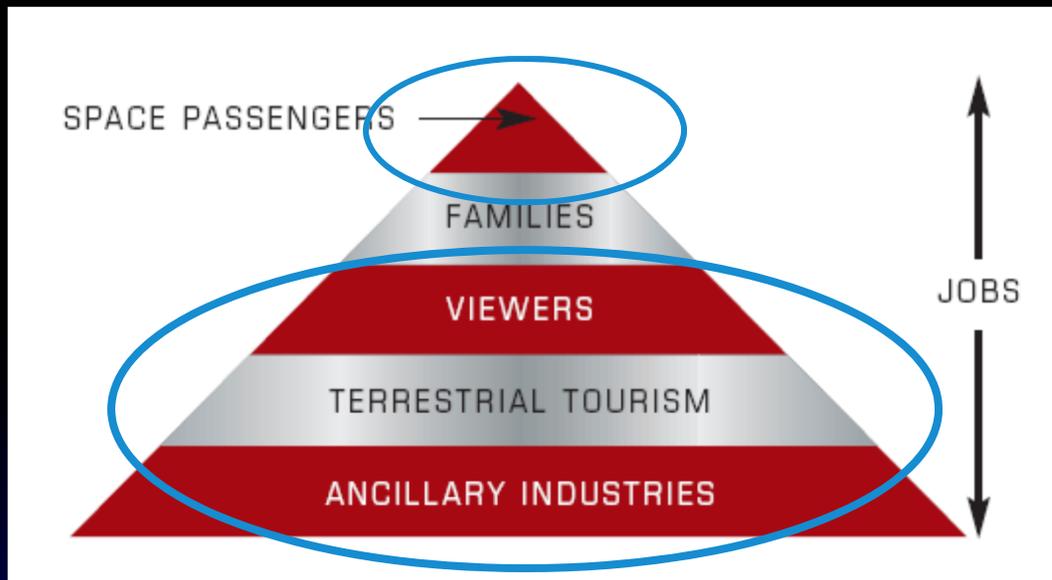

The industry is going to need
SPACE PORTS!!

February 2014

Economic Impact

Tourism

Employment

Science & Education

February 2014

Where do we stand

- Setup of spaceport taskforce with FOL, CAP, ATC, DVL & SXC
- Curaçao regulations for commercial spaceflight operations
- Initiated Legal Framework for Commercial Space Operations.
- Planned start date by the end of 2014
- So we can deliver the first A.O.C.

February 2014

Conclusion

SXC has a complete & advanced business plan on the development for commercial spaceflight operations from Curacao by the end of 2014

SXC considers Curaçao as its first Spaceport and also as an example for other countries/locations.

Curacao is one of the pioneers in Space Law.
