

17th FAA COMMERCIAL SPACE TRANSPORTATION CONFERENCE

Panel on International Spaceport Development and
Readiness

Moderator: Derek Webber

Panelists:

Andrew Nelson, COO XCOR Aerospace

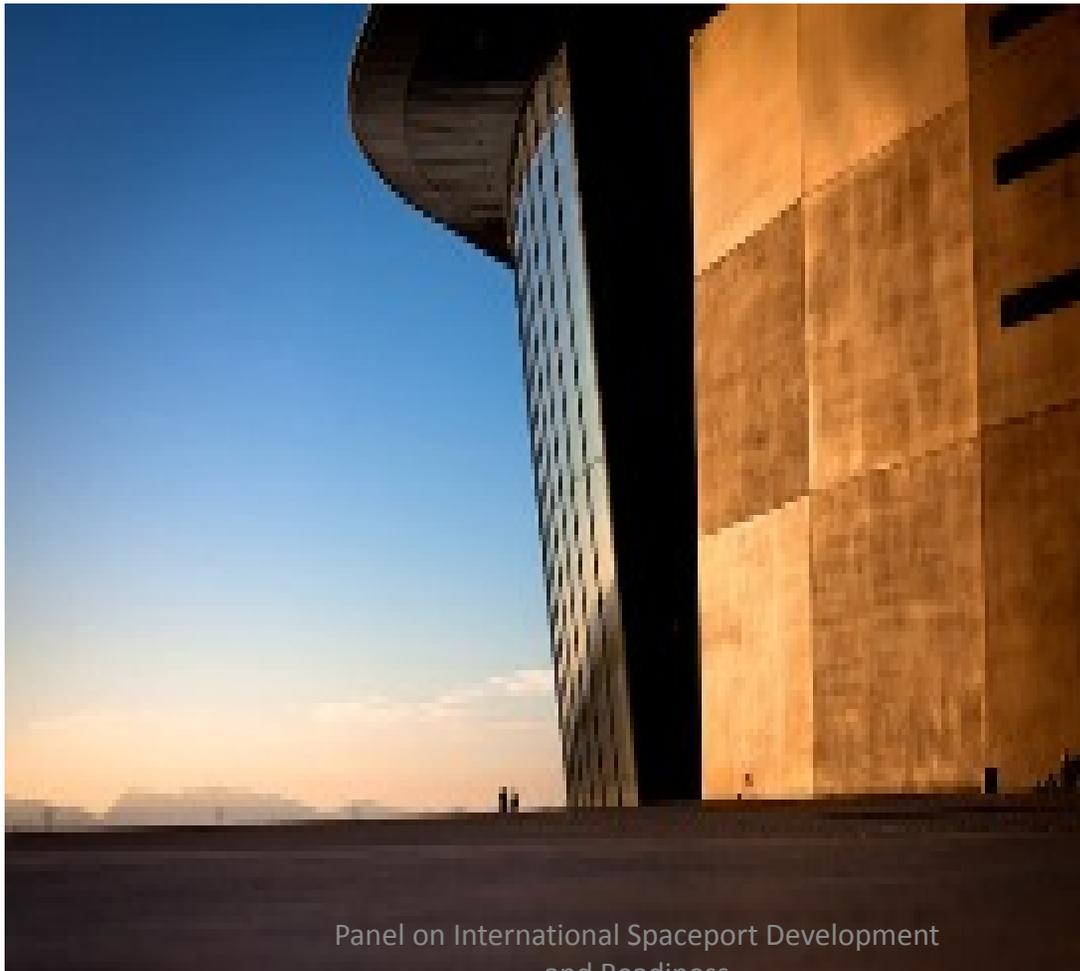

Maurice Adriaens, Managing Director, Curacao Airport Holding

Rafael Harillo, Stardust Consulting, Spain

Karin Nilsson, CEO Spaceport Sweden

Robert Feierbach, Head of US Ops for Swiss Space Systems

International Spaceport Development

Panel on International Spaceport Development
and Readiness

Approach to panel

- Moderator will provide brief bios of all the panelists at the start
- Each of the 5 panelists in turn has 15 to 20 mins to present their subject, followed by a few Q and As from the audience
- This will be followed by an open forum discussion across all the panelists, with focused Qs from the chair (and maybe a few more from the audience)

Panelist bios

- Andrew Nelson, COO XCOR
- Maurice Adriaens, MD Curacao Airport Holding, former Minister of Transport for the Netherlands Antilles, degrees in law and agriculture
- Rafael Harillo, Stardust Consulting, Spain – lawyer, space consultant and private pilot
- Karin Nilsson, CEO Spaceport Sweden, Kiruna
- Robert Feierbach, Head of US Ops, Swiss Space Systems, degrees in computer science and management, former executive leader at Echostar, SES-ASTRA, EUTELSAT and SpaceX

Panel on International Spaceports

– Issues:

- What do spaceports expect from their respective governments?
- Are spaceports going to be simply re-named airports or will they be specialized?
- What kinds of revenue sources are anticipated beyond space tourism?
- How will Air Traffic Control issues be handled?
- How is the US helping in encouraging an international network of spaceports? Is ITAR still a problem?
- Is point-to-point real?

True Commercial Space Transportation.....

THANK YOU

- to panelists
- to audience
- to FAA-AST
