

CACI – Testicular Cancer Worksheet (Updated 8/26/15)

The Examiner must review a current status report by the treating physician and any supporting documents to determine the applicant's eligibility for certification. If the applicant **meets ALL the acceptable certification criteria** listed below, the Examiner can issue. Applicants for first- or second-class must provide this information annually; applicants for third-class must provide the information with each required exam.

AME MUST REVIEW	ACCEPTABLE CERTIFICATION CRITERIA
<p>A current status report from the treating physician. If it reveals the:</p> <ol style="list-style-type: none"> 1. Condition is stable with no spread or recurrence; 2. There is no current or historic evidence of any metastatic disease; 3. Active treatment is completed (chemotherapy/radiation, etc.) and no new treatment is recommended at this time; and 4. If surgery has been performed, the airman is off pain medication(s), has made a full recovery, and has been released by the surgeon. 	<p><input type="checkbox"/> Yes</p>
Symptoms	<p><input type="checkbox"/> None</p>
<p>Current treatment</p> <p>Notes: If it has been 5 or more years since the airman has had any treatment for this condition, with no history of metastatic disease and no reoccurrence, CACI is not required. Note this in Block 60. (See disposition table.)</p> <p>If the airman is currently on chemo or radiation treatment, defer the exam. (See disposition table.)</p>	<p><input type="checkbox"/> None, surveillance or watchful waiting</p>

AME MUST NOTE in Block 60 one of the following:

CACI qualified Testicular cancer.

Not CACI qualified Testicular cancer. Issued per valid SI/AASI. (Submit supporting documents.)

NOT CACI qualified Testicular cancer. I have deferred. (Submit supporting documents.)
