YES

AT RISK FOR OSA

Give airman FAS OSA Spec Sheet B
Airman has 90 days to comply
ISSUE, if otherwise qualified

---

ISSUE, if otherwise qualified

---

* See AASM Tables 2 and 3. AME must use clinical judgment in applying AASM criteria. The risk of OSA is determined by an integrated assessment of history, symptoms, and physical/clinical findings. No disqualification of airmen should be based on BMI alone.

** If the applicant has been previously assessed, has previously provided the information, was negative for evidence of OSA, AND has no changes in risk factors since the last exam, proceed with the flow chart as with any other applicant.
