

PARC Telecon Summary

September 24, 2009

1. RNP SAAAR Update Action Team

Cramer

The draft recommendations have been sent to the Action Team for review, and a telecon is scheduled for Tuesday September 29th to discuss and finalize the recommendations. They will then be sent out for distribution to the PARC for discussion at the October F2F.

2. RNP SAAAR Transition to ILS

Cramer

Data has been received from the OEMs, and analysis has started to understand the data that was sent. The goal is to have something close to a final state by the October F2F. It was asked if the group should be looking to expand their efforts, and it was agreed that there were other areas to explore. Information is available to broaden the scope of work, but the team will stay focused on what they are working on for now, then will expand their work later. The ToRs will need to be checked to see if they cover broadening the scope of work. There is also activity going on at the Tech Center of interest to the PARC. Mark Steinbicker took an Action to provide a briefing on the Tech Center activity at the F2F.

3. RNP Procedure Process

Alexander

The final draft paper has been distributed to the group for comment, with an Oct. 5th suspense date given. After the group reviews the paper, a Final paper will be distributed to the PARC for discussion at the F2F.

4. October F2F

Albers

The draft Agenda has been sent out. PARC Members and Working Group and Action Team Chairs are requested to review the Agenda to ensure the timeslots given to them are approved. It is also requested that any additional Agenda items be sent to Steve Albers and Carrie Brady. A reminder was given that if you will be attending the F2F, you will need to register with NBAA. Anyone needing help registering should contact Steve Albers or Carrie Brady.

5. RNP Operational Integration Action Team TORs

The ToRs are available for comment on the PARC Members KSN Site, with comments due by close of business Monday. A discussion took place to decide if this activity overlapped with the work being done by the RNP Benefits Interaction Group. It was decided that this would be a separate activity from the work being done by the Benefits Interaction Group, but that it would require coordination between the two groups. The Application being explored is among one of the ones being explored by Benefits Interaction group, but there is benefit in having a more focused group to work this one application while the Interaction group works more general topics. A close watch should be kept to ensure the two activities do not diverge, with regular discussions to take place during the bi-weekly telecons. Offline discussions should take place prior to F2F. Suzanne Porter and Dave Jones took an Action to have the offline discussions.

New Business

There are activities being proposed to define TBO that the PARC needs to be aware of. We also need to keep aware of Task Force Five and JPDO activities. There should be a discussion of these activities at the F2F, which should include what the implications are to the PARC. Work is being proposed by TF5 that will involve follow on groups that will be working issues of importance to the PARC. There will be a need to ensure those groups get proper information to enable them to work the issues.

Future PARC F2F dates were proposed. The proposed dates are: Feb. 11-12, 2010. June 10-11, 2010, and Oct. 14-15, 2010. PARC Members were asked to check their calendars and respond with any conflicts to those proposed dates to Steve Albers and Carrie Brady.

Future PARC Meetings

PARC F2F – Oct. 22nd -23rd - Orlando, FL NBAA

Communications WG – Dec. 8th -9^h, 2009 – Temple, AZ - Iridium
