

# PARC Telecon Summary

## August 26, 2010

### 1. RNP Established

**Dalton**

The Group held another meeting two weeks ago to refine what was briefed at last PARC F2F meeting. More detail will be added to the report regarding the differences between AC 90-101 and AC 90-105. By the next F2F meeting the final report with recommendations will be ready for PARC approval.

### 2. FltDAWG

**Abbott**

The Group is working on finalizing their findings and recommendations. A final review of their recommendations is being done internally by telecon. It was asked for a discussion to take place offline regarding which recommendations are better suited to go to PARC, and which will be targeted to CAST. Some may be better suited for going to CAST. Rulemaking recommendations should go to the PARC, while others might be better for CAST. Kathy will have that discussion offline with Dave Nakamura. The Group has a planned completion date of the end of September.

### 3. Need for RNP AR 'Overlay' Criteria

**Roberts**

NBAA has taken a close look at the recent proliferation of RNP AR procedures and believe that a future issue is being created regarding access for people who are not RNP AR equipped. It was asked if the PARC would form a group to discuss the best way this can be handled. **\*ACTION\*** The FAA took an action to hold a discussion with NBAA and identified subject matter experts regarding additional tools available now and others coming down the line. The discussion will determine a strategy as to where to use those tools.

### 4. FANS 1/A over Iridium

**Kraft**

Recommendations Report and Cover Letter update. Tom Kraft was unable to participate and will be contacted offline for an update.

### 5. SharePoint Site

**Albers**

All PARC KSN sites have been migrated to SharePoint. All PARC KSN users are now being added to the new PARC SharePoint sites. External (non-AVS) users will be receiving further information from Carrie Brady about account activation. You will receive an e-mail from 9-NATL-AVS-IT-ServiceDesk@faa.gov with instructions to complete a form, once you have completed this you will then be added to your SharePoint sites.

### New Business

Sarah Dalton has been talking to Sam Miller regarding vertical separation between RNP and RNAV, ILS and RNAV, and other combinations of vertical guidance. This is for the interaction between Boeing Field and SEATAC, but will impact anywhere with two airports close to each other. Sam Miller will provide more details at next telecon.

## **Future PARC Meetings**

PARC F2F Nov. 4-5, 2010 AMTI - Arlington, VA is the tentative location. The location and dates of this meeting are not yet finalized and attendees were advised to make no plans that were not refundable.

Communications WG F2F October 13-14, 2010 – Phoenix, AZ
