

Dear [Recipient's Name]:

We have completed our Operational/Airworthiness review of the your application for fail passive (FP) CAT II/III approval for their B-737-800 aircraft and find they meet all the provisions set forth in the applicable advisory circulars (AC) and FAA orders.

Approval is granted to initiate your Operational Use Suitability Demonstration (OUSD) in accordance with your compliance statement dated [date] and OUSD plan dated [date]. After successful completion of the OUSD, the requested Category II and III minima may be authorized in accordance with the following provisions:

1. ABC Airlines must perform 100 landings at CAT I minimums or better, with a 90% success rate. Upon completion of these landings, a CAT II authorization with a DH of 100 feet and RVR 1200 may be authorized. This will mark the completion of the OUSD landing phase.
2. ABC Airlines must then complete a 6-month OUSD demonstration phase. Upon successful completion of the demonstration phase, an authorization with CAT II minima of DH of 100 feet and RVR 1000 and CAT III minima of DH 50 feet and RVR 600 may be authorized. This will mark the completion of the OUSD validation phase and completes the OUSD.

If you have any further questions concerning this matter, please contact Inspector [name] at [phone and e-mail].

Sincerely,
