Flight Procedures Service Providers

Dear Service Providers:

This letter is intended to provide you with prioritization and operator information regarding the procedures being submitted to the Flight Procedures and Airspace Group's Procedure Review Board (PRB).

Above all, the PRB will prioritize Part 97 and Helicopter Air Ambulance procedures. Other procedures, not prioritized, will be processed as time and resources permit, without undue delay.

Additionally, beginning today, the PRB will no longer accept special procedure and RNAV Visual submissions without an identified operator. A comprehensive safety review includes a review of the operator's eligibility and guidelines for procedure use. Without an identified operator this safety review is incomplete.

You may contact Romana Wolf, Acting Group Manager, Flight Procedures and Airspace Group at 603.881.1138 or romana.wolf@faa.gov with any questions.

Sincerely,

A handwritten signature in black ink that reads "Christopher J. Hope".

Christopher J. Hope
Manager, Flight Technologies
and Procedures Division
