

# 15I1B1 Target #2 Global Leadership Internal Transformation: Develop scenarios and conduct at least two (2) proof of concept demonstration for the data-informed prioritization process and its components. Due September 30, 2015.

Special Designations: OSI, FAA Strategic Initiatives

## Commentary (March 2015)

In March, a detailed Data Informed Task Force (DATA TF) status briefing was presented to the International Advisory Board (IAB) during the February 18, 2015 meeting which described the outcomes of Scenario 1, including regional snapshot reports and an FAA global footprint dashboard. The Task Force developed a Scenario 2 project concept and held the first meeting of the Scenario Two Advisory Board (STAB). From the STAB meeting, four (4) potential use cases and associated data sources were identified. The Task Force also conducted an initial review of Traffic Flow Management System data and began evaluating operations and equipage levels by Flight Information Region boundaries. The immediate challenge include continuing to build on data and associated analysis for Scenario 1 and 2, while designing and executing a 3rd Scenario by the end of the year. Next steps include selecting the Scenario 2 use case, gather data needed to conduct the use case and begin analysis. Also, to start planning scenario 3

## Commentary (February 2015)

In February, a detailed Data Informed Task Force (DATA TF) status briefing was presented to the International Advisory Board (IAB) on February 18, 2015. This provided an update on Scenario 1 and was accompanied by initial Snapshot Reports for the three FAA international regions. It also included an update on Scenario 2 including the initial project concept and request for staffing of a Scenario 2 Advisory Board (S2AB). Challenges continue to center on building on the data and associated analysis for Scenario 1 and 2, while designing and executing a 3rd Scenario by the end of the year. Next steps include continued refinement of Scenario 1, execution of Scenario 2, and planning of Scenario 3.

## Status Table (Qualitative Metric)

Period	Actual
10/2014	Green
11/2014	Green
12/2014	Green
01/2015	Green
02/2015	Green
03/2015	Green
