16S2C1 Target #2 Deliver safety risk assessment report to the FAA SMS Committee on one FAA-level Significant Safety Issue (SSI). (Light Emitting Diodes (LED) Lighting in Aircraft Operations) Due September 30, 2016.

Special Designations: OSI

Commentary (July 2016)

The LED Lighting Team developed mitigations for the four medium risk (yellow) hazards and completed their draft initial report. The SRM Team is reviewing the draft report and expects to deliver the final report to the FAA SMS Committee by the end of the fiscal year.

Commentary (June 2016)

The team met in early June to develop mitigations and a draft monitoring plan for the four medium risk (yellow) hazards associated with the LED Lighting SSI. The addendum to the Safety Risk Assessment report is expected to be ready for internal team review by the end of July.
