

## 16C.64A Noise Exposure

### Description

The U.S. population exposed to significant aircraft noise around airports has been reduced to less than 328,000 persons in calendar year 2015.

Special Designations: OSI, DOT Goals

### Commentary (July 2016)

After doing additional review, the noise target will not be met. Discussions are ongoing in APL about the implications and reasons why the goal will not be met.

### Commentary (June 2016)

Initial indications are that the target will not be met but additional analysis is being conducted to further validate the results.
