

# 12C16 Flight Predictability

## Description

Improve flight predictability by reducing variances in flying time between core airports based on a 2012 baseline. FY 2012 Target: Finalize metric and Target

## Commentary (12/2011)

A cross-Agency working group has been established to further define this metric and target, with representation from APL, ATO, ARP, ANG, and Mitre/CAASD. Three meetings have been held, and some alternative formulations of the metric have been examined.

Period Table

	Actual	Target	Target Lines - Index	Target Lines - Index Range
10/2011	3	Green	---	---
11/2011	3	Green	---	---
12/2011	3	Green	---	---
