

14E1A Leadership Development

Description

Support an agency-wide program with core competencies and tailored content that is delivered through a variety of learning channels.

Special Designations: Corporate Priorities

Commentary (March 2014)

The FLLI leadership team is building an entirely new leadership and managerial development program that supports FAA wide customers by providing a curriculum focusing on core competencies identified through research and validated through collaboration with subject matter experts and learning professionals from across the agency. The FLLI curriculum is tailored specifically to meet agency leadership needs and to support the Administrator's strategic initiatives and will be delivered to leaders at all levels through a variety of learning channels.

Commentary (February 2014)

The FLLI leadership team is building an entirely new leadership and managerial development program that supports FAA wide customers by providing a curriculum focusing on core competencies identified through research and validated through collaboration with subject matter experts and learning professionals from across the agency. The FLLI curriculum is tailored specifically to meet agency leadership needs and to support the Administrator's strategic initiatives and will be delivered to leaders at all levels through a variety of learning channels.
