

14E.44A6 Telework - OSI

Description

Achieve a 40 percent participation rate of eligible Teleworking employees FAA-wide.

Special Designations: OSI

Commentary (March 2014)

The participation rate for eligible telework employees for Q2 FY14 was 47.5%. This represents a 3.6% increase from the Q1 FY14 rate of 43.9%. This data is obtained from DataMart on a quarterly basis and analyzed by the Telework Coordinator. The increase in participation may be attributed to the unusually high number of government closures (for weather) in Q2 as well as weekly Tuesday FAA Daily Broadcast messages encouraging telework. The next update will be available in July.

Commentary (February 2014)

Currently FAA-wide, employees eligible to participate in teleworking is at 43.9%.

Status Table (Qualitative Metric)

Period	Actual
12/2013	Green
01/2014	Green
