

16S2C1 Target #2 Deliver safety risk assessment report to the FAA SMS Committee on one FAA-level Significant Safety Issue (SSI). (Light Emitting Diodes (LED) Lighting in Aircraft Operations) Due September 30, 2016.

Special Designations: OSI

Commentary (March 2016)

The team finalized a report documenting the risk assessment results and delivered it to the responsible Executives. The responsible Executives are meeting in April and will determine the next steps to complete this activity.

Commentary (February 2016)

The team is drafting a Safety Risk Assessment report to document the findings of the Preliminary Hazard Analysis, the risk assessment using the risk matrix in FAA Order 8040.4A, and the team's next steps. The team is identifying additional members for the upcoming in-depth analysis and developing the plan to complete the Safety Risk Management effort in accordance with the FY16 Business Plan target.
