

# Putting It All Together

## Student Workbook

Take a few moments to review the information on the Putting It All Together webpage and follow along in this workbook as you complete the content online. It doesn't include everything – just the things you need to work on!

**Have questions or comments?** Please contact the Airport Design Challenge team at [avsed.challenge@faa.gov](mailto:avsed.challenge@faa.gov).

## Final Video Tour Instructions

Here's what you need to do:

- Review the rubric and make sure you've put all the finishing touches on your airport in Minecraft!
- Make a video of your airport. You can record your screen or make a slideshow with pictures.
- Your video should be around but not be longer than 5 minutes.
- Upload your video to YouTube (you can make it unlisted if you would like!) and share with us the link in the submission area.
- Narrate your video and tell us:
  - What parts of the airport you made
  - What you learned
  - What makes your airport special
  - What new ideas you added
  - What you liked best about building your airport
