Project Name: OZW Livingston County CAT A CIR Increases

Project Reason: From the obstacle impact team, a more accurate survey of the controlling obstacle was completed resulting in a 1' height increase, changing the CMDA from 1100 to 1120. Monopole 2021-agl-10674-oe (OAS 26-003020) 1101 MSL 188 AGL 423708.24N/0835657.38W AC 1A (20/3) ROC 300 (1101+300=1401 rounded 1420). The circling CAT A changes from MDA 1400/HAA 438 to MDA 1420/HAA 458. This affects the RNAV (GPS) RWY 31, RNAV (GPS) RWY 13, and the ILS or LOC RWY 13 JIVEX fix minimums. Change PBN Requirements Note from RNP APCH to RNP APCH - GPS. RNAV (GPS) RWY 31: LNAV/VNAV DA/VIS/HAT changed from 1410 - 1 5/8 - 467 to 1400 - 1 3/8 - 457 to match LNAV MDA/HAT.
