Diagram illustrating the VGS (Vertical Guidance System) angle and its relationship to the TCH (Threshold Crossing Height) angle. The diagram shows a 350° VGS angle and a 2.96° TCH angle. The VGS angle is not coincident with the TCH angle, resulting in a 170° angle between the VGS and the TCH. The diagram also shows a 2200' altitude and a 1.2 NM distance. The VGS angle is 3.00/TCH 40. The diagram includes a legend for symbols: 2000 (up arrow), 2300 (curved arrow), and PRX (square with a circle).
