Early Coordination - Scott Polzin - Outlook

Thank you for your letter regarding early coordination on the Phoenix Area FAA Modernization Project.

It sounds as though you are already working to notify our designated residential historic districts. I've included a map/contact list for any other neighborhoods that may be impacted for your reference.

My office would like to stay actively involved throughout this process and be notified of any public meetings.

Thank you,

Helana

Subject: Early Coordination for the Phoenix Area FAA Modernization Project

Dear Stakeholder,

The Federal Aviation Administration (FAA) is initiating an Environmental Assessment (EA) for the Phoenix Area FAA Modernization Project. This effort will evaluate potential environmental impacts associated with changes to aircraft flight paths and altitudes in the region.

Please see the attached letter for additional details, including information on the study areas, process, and opportunities to provide timely feedback.

Thank you for your attention and participation.

Sincerely,
Federal Aviation Administration

SHPO-2025-1479 (183974)

Rec: 11-20-25

November 20, 2025

Kathryn Leonard
Historic Preservation Officer
State of Arizona
1110 W Washington Street ,Suite 100
Phoenix, AZ 85007

Subject: Early Coordination for the Phoenix Area FAA Modernization Project

Dear Kathryn Leonard:

The purpose of this letter is to inform you of a proposal under consideration by the Federal Aviation Administration (FAA) and to solicit your feedback. In accordance with the National Environmental Policy Act (NEPA), the FAA is undertaking the preparation of an Environmental Assessment (EA) to consider the potential environmental impacts associated with changes to air traffic procedures as part of the Phoenix Area FAA Modernization Project. This project has been determined to be subject to Section 106 of the National Historic Preservation Act (NHPA) and its implementing regulations in 36 CFR Part 800. The FAA will initiate consultation under Section 106 once more information is available.

The Phoenix Area FAA Modernization Project would involve changes in aircraft flight paths and altitudes in certain areas. The FAA has established a General Study Area to evaluate potential impacts of changes in aircraft routing, including those that would occur below 10,000 feet (ft.) above ground level (AGL). Additionally, since the General Study Area includes national parks, wildlife refuges, and various cultural properties where other noise is very low and a quiet setting is a generally recognized purpose and attribute, a Supplemental Study Area extending up to 18,000 ft. AGL has been identified. (Please see the attached Exhibit 1, Project Study Areas, and Exhibit 2, Project Study Areas and Proposed Flight Procedures.)

Ten airports within the General Study Area and Supplemental Study Area will be studied, including the primary airport Phoenix Sky Harbor International Airport (PHX). The nine additional satellite airports are:

- DVT – Phoenix Deer Valley Airport
- FFZ – Falcon Field Airport
- IWA – Mesa Gateway Airport
- CHD – Chandler Municipal Airport
- GYR – Phoenix Goodyear Airport
- GEU – Glendale Regional Airport
- SDL – Scottsdale Airport
- BXK – Buckeye Municipal Airport
- P19 – Stellar Airpark

The FAA is inviting local agencies with jurisdiction over land within the General Study Area and Supplemental Study Area to provide early input on potential environmental concerns and historic resources. The FAA requests your assistance in identifying other interested parties that should be considered for participation in the Section 106 consultation process when it is initiated.

Lawson cont.

2

Additionally, public input is essential to inform Federal decision-making as part of the Section 106 process. The FAA also requests your assistance in identifying community groups and associations that may have an interest in this project and its effects on historic properties. The FAA will seek and consider the views of the public in a manner reflecting the nature and complexity of this undertaking and its effects on historic properties.

We look forward to your response. If you have any initial comments or questions on this undertaking, please contact:

Attn: Phoenix Area FAA Modernization
Operations Support Group
FAA-ATO Central Service Center AJV C-250
10101 Hillwood Pkwy
Fort Worth, TX 76177

Email: PHX-MODERNIZATION-comment@faa.gov

For additional information and the most recent developments on this project, please visit the PHX Area FAA Modernization Project community engagement website https://www.faa.gov/air_traffic/community_engagement/phx.

Your timely response will assist us in incorporating your concerns into the project planning. To facilitate this coordination, we would appreciate a response no later than December 21, 2025.

Sincerely,

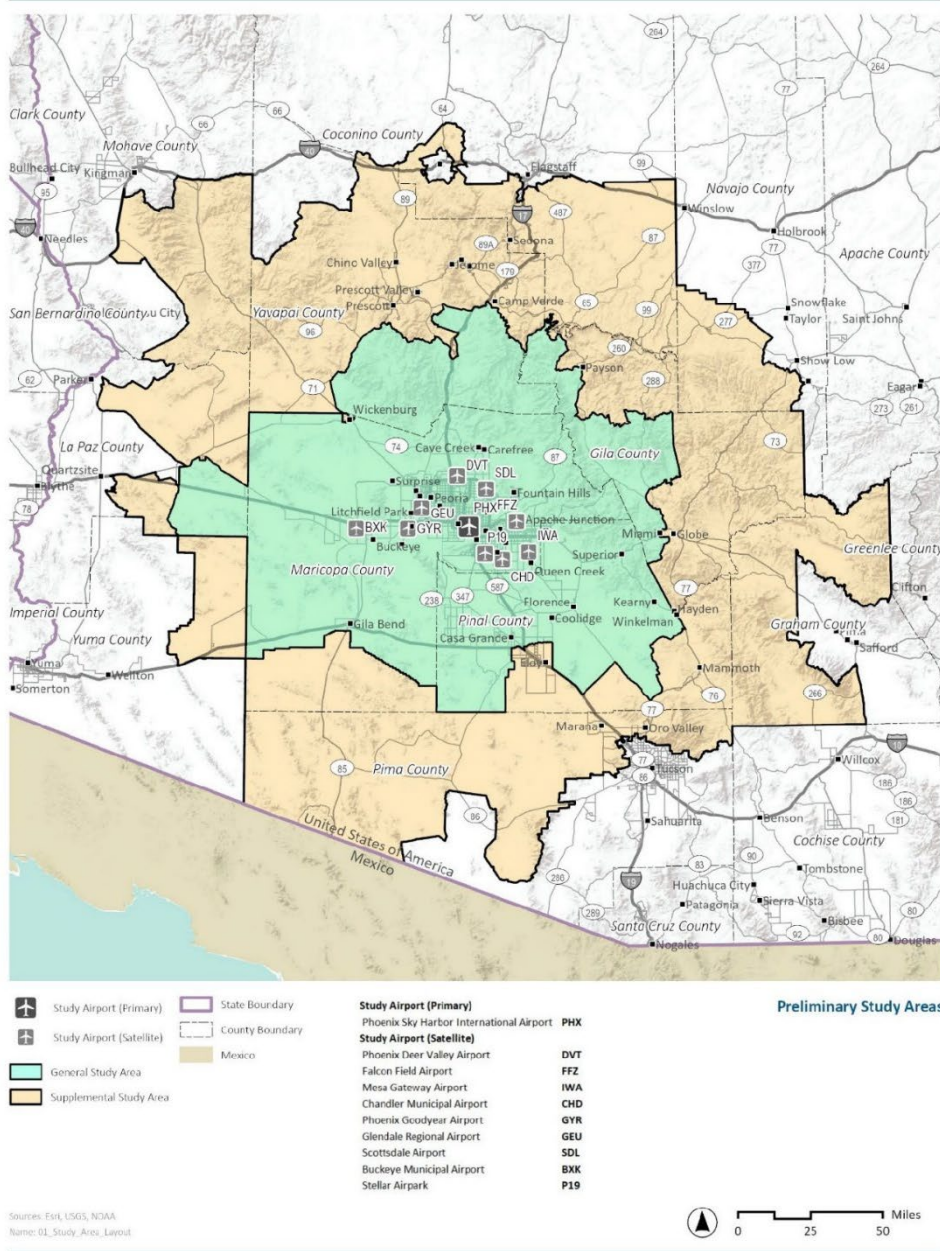

Christopher L. Southerland
Acting Director, Central Service Center
Air Traffic Organization

Dear Mr. Southerland:

Thank you for informing our office about the proposal under consideration by the Federal Aviation Administration (FAA) regarding the Phoenix Area Modernization Project. In accordance with the National Environmental Policy Act (NEPA), the FAA is currently preparing an Environmental Assessment (EA) to consider potential environmental impacts associated with changes to air traffic procedures. If the project moves forward, the State Historic Preservation Office (SHPO) will be reviewing this undertaking pursuant to 36 CFR Part 800, the regulations implementing Section 106 of the National Historic Preservation Act as amended (54 USC 306108).

The proposed project would modify aircraft departure routes and altitudes associated with Phoenix Sky Harbor International Airport and nine additional satellite airports located within Maricopa County. The FAA-defined *General Study Area* encompasses portions of counties adjacent to all 10 airports where proposed routing changes would originate, and flight paths altered below 10,000 feet above ground level (AGL). These counties include Maricopa, La Paz, Yavapai, Pinal, and Gila.

In addition, the FAA identified a *Supplemental Study Area* extending beyond the *General Study Area* to address potential effects on cultural resources for which quiet settings constitute a defining characteristic. This area includes portions of the counties listed above, as well as portions of additional counties where routing changes would occur between 10,000 and 18,000 feet AGL. These additional counties include Yuma, Mohave, Coconino, Navajo, Graham, and Pima (per FAA Exhibit 1, Project Study Areas). Proposed flight procedures would continue at altitudes above 18,000 feet AGL over Cochise and Apache Counties; however, these areas are excluded from further environmental impact analysis. Santa Cruz and Greenlee counties are not anticipated to experience changes to existing flight paths (per FAA Exhibit 2, Project Study Areas and Proposed Flight Procedures).

In the EA project scoping letter received on November 20, 2025, SHPO was invited to provide early input on potential concerns regarding cultural resources, to identify additional consulting parties that should participate in the Section 106 process, and to identify community stakeholder groups who may be interested in providing public input. Our comments are below.

1. Relating to a similar project in 2017, a federal appeals court ordered the FAA to abandon a flight path change at Phoenix Sky Harbor Airport which raised noise to unacceptable levels in historic districts. The U.S. Court of Appeals for the District of Columbia Circuit determined that there had been insufficient public input on the project's potential effects. SHPO

2

- appreciates the opportunity to be involved early in the process of reviewing potential future changes to flight paths over the state's historic resources.
2. Please provide our office any visual, auditory, and vibrational analyses completed as part of the environmental review as the results will be used to inform on the area of potential effects in the subsequent Section 106 review.
 3. Efforts to identify historic properties should occur in study areas for all 10 airports.
 4. Any flight path that brings an increase in noise above current levels should be considered a potential Adverse Effect.
 5. Potential adverse effects to places of traditional cultural and religious importance in the General and Supplemental Study Areas, including seasonal impact that may affect ceremonial practices, must be considered in consultation with affiliated tribes. Please inform our office of tribal concerns, if they are raised.
 6. Consulting Parties that should be invited to comment include the National Park Service and all Certified Local Governments (CLGs) located within the study areas to address effects of the proposed action on historic and cultural resources
 7. Community stakeholder groups that should be invited to comment include the Arizona Preservation Foundation, as well as municipal, local and neighborhood-based historic preservation organizations located in the General and Supplemental Study Areas.
 8. Lastly, SHPO wishes to be informed of concerns brought to FAA by any of the parties listed above.

We appreciate your cooperation in complying with historic preservation and NEPA requirements. If you have any questions, feel free to contact me at 480-714-1473 or via email at slawson@azstateparks.gov.

Sincerely,

Susan Lawson, Architect
State Historic Preservation Office

PLANNING AND DEVELOPMENT DEPARTMENT

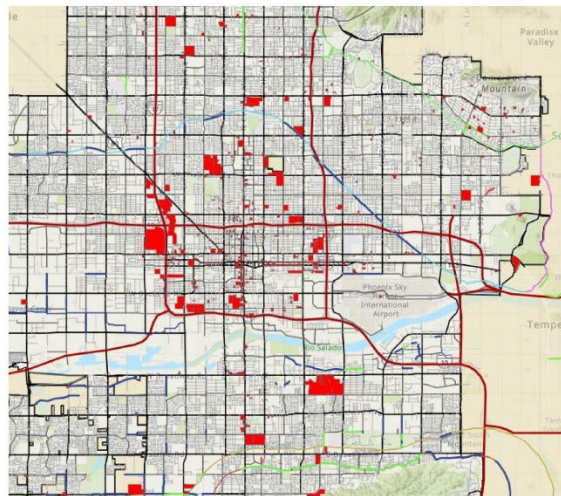

December 21, 2025

Christopher L. Southerland, Acting Director
Central Service Center
Air Traffic Organization
Federal Aviation Administration
10101 Hillwood Pkwy
Fort Worth, TX 76177

RE: Early Coordination for the Phoenix Area FAA Modernization Project

Dear Mr. Southerland:

This letter responds to your request for the identification of potential environmental concerns and historic resources within the General and Supplemental study areas for the Phoenix Area FAA Modernization Project. There are 37 residential historic districts located within the City of Phoenix in the General Study Area listed in the Phoenix and/or National Historic Property registers — all but the National Register only listed Westwood Village and Estates are depicted on the attached *Phoenix Historic Property Register Residential Historic Districts* map. Additional register eligible historic districts and properties are depicted below and are available as spatial data from the city:

Historic, register-eligible properties depicted in red

200 West Washington Street, 3rd Floor • Phoenix, Arizona 85003 • 602-256-4155

Ruter cont.

2

You have also specifically requested assistance in identifying community groups or associations that are likely to have an interest in the undertaking and its effects on historic properties. Community groups and organizations interested in historic resources may include those listed in the attached document, *Neighborhood Associations & Preservation Organizations*.

In addition, South Mountain, which is within the general study area, retains traditional cultural significance to Native American tribes. The Gila River Indian Community (GRIC) and the Salt River Pima-Maricopa Indian Community (SRPMIC) have formally designated South Mountain as a place of religious and cultural significance to all O'odham people of Arizona. Therefore, the GRIC and SRPMIC Tribal Historic Preservation Offices should be consulted regarding this undertaking. Coordination with our City Archaeology Office, through Dr. Christopher Schwartz, for additional cultural resources concerns and possible consulting parties is also recommended.

Dr. Christopher Schwartz
City Archaeologist
S'edav Va'aki Museum
Phoenix Arts & Culture
4619 East Washington Street
Phoenix, AZ 85034
christopher.schwartz@phoenix.gov
602-534-1573

As you are completing your Section 106 process in conjunction with the NEPA process, I recommend you also contact our Neighborhood Services Department to assist in identification of interested parties beyond those interested in historic properties.

City of Phoenix
Neighborhood Services Department
Spencer Self, Director
Phoenix City Hall
200 West Washington Street, 4th Floor
Phoenix, Arizona 85003
chris.hallett@phoenix.gov
602-534-6176

In light of the 2017 federal appeals court order for the FAA to abandon a flight change path at Phoenix Sky Harbor Airport which raised noise levels to unacceptable levels resulting in an adverse effect to historic districts, there is considerable public interest and concern with the newly proposed study for the potential alteration of flight paths. I appreciate the early outreach efforts to stakeholders in this process.

Ruter cont.

3

I would appreciate being notified of all upcoming community meetings in advance and look forward to continued coordination as a consulting party in this process.

Sincerely,

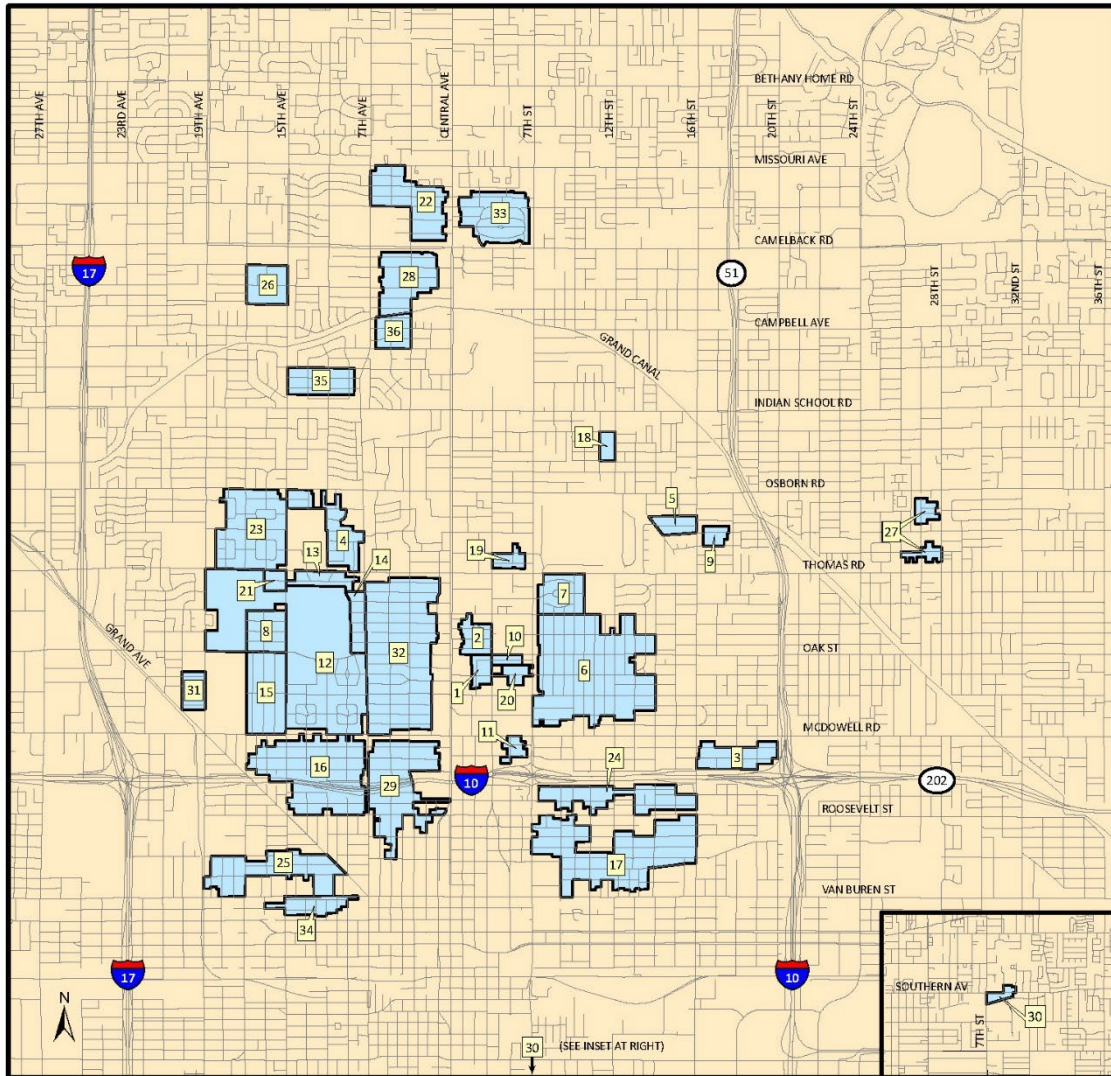

Helana Ruter
Historic Preservation Officer

Subject: Early Coordination for the Phoenix Area FAA Modernization Project

Dear Helana Ruter:

The purpose of this letter is to inform you of a proposal under consideration by the Federal Aviation Administration (FAA) and to solicit your feedback. In accordance with the National Environmental Policy Act (NEPA), the FAA is undertaking the preparation of an Environmental Assessment (EA) to consider the potential environmental impacts associated with changes to air traffic procedures as part of the Phoenix Area FAA Modernization Project. This project has been determined to be subject to Section 106 of the National Historic Preservation Act (NHPA) and its implementing regulations in 36 CFR Part 800. The FAA will initiate consultation under Section 106 once more information is available.

The Phoenix Area FAA Modernization Project would involve changes in aircraft flight paths and altitudes in certain areas. The FAA has established a General Study Area to evaluate potential impacts of changes in aircraft routing, including those that would occur below 10,000 feet (ft.) above ground level (AGL). Additionally, since the General Study Area includes national parks, wildlife refuges, and various cultural properties where other noise is very low and a quiet setting is a generally recognized purpose and attribute, a Supplemental Study Area extending up to 18,000 ft. AGL has been identified. (Please see the attached Exhibit 1, Project Study Areas, and Exhibit 2, Project Study Areas and Proposed Flight Procedures.)

Ten airports within the General Study Area and Supplemental Study Area will be studied, including the primary airport Phoenix Sky Harbor International Airport (PHX). The nine additional satellite airports are:

- DVT – Phoenix Deer Valley Airport
- FFZ – Falcon Field Airport
- IWA – Mesa Gateway Airport
- CHD – Chandler Municipal Airport
- GYR – Phoenix Goodyear Airport
- GEU – Glendale Regional Airport
- SDL – Scottsdale Airport
- BXK – Buckeye Municipal Airport
- P19 – Stellar Airpark

The FAA is inviting local agencies with jurisdiction over land within the General Study Area and Supplemental Study Area to provide early input on potential environmental concerns and historic resources. The FAA requests your assistance in identifying other interested parties that should be considered for participation in the Section 106 consultation process when it is initiated.

2

Additionally, public input is essential to inform Federal decision-making as part of the Section 106 process. The FAA also requests your assistance in identifying community groups and associations that may have an interest in this project and its effects on historic properties. The FAA will seek and consider the views of the public in a manner reflecting the nature and complexity of this undertaking and its effects on historic properties.

We look forward to your response. If you have any initial comments or questions on this undertaking, please contact:

Attn: Phoenix Area FAA Modernization
Operations Support Group
FAA-ATO Central Service Center AJV C-250

Fort Worth, TX 76177

Email: PHX-MODERNIZATION-comment@faa.gov

For additional information and the most recent developments on this project, please visit the PHX Area FAA Modernization Project community engagement website https://www.faa.gov/air_traffic/community_engagement/phx.

Your timely response will assist us in incorporating your concerns into the project planning. To facilitate this coordination, we would appreciate a response no later than December 21, 2025.

Sincerely,

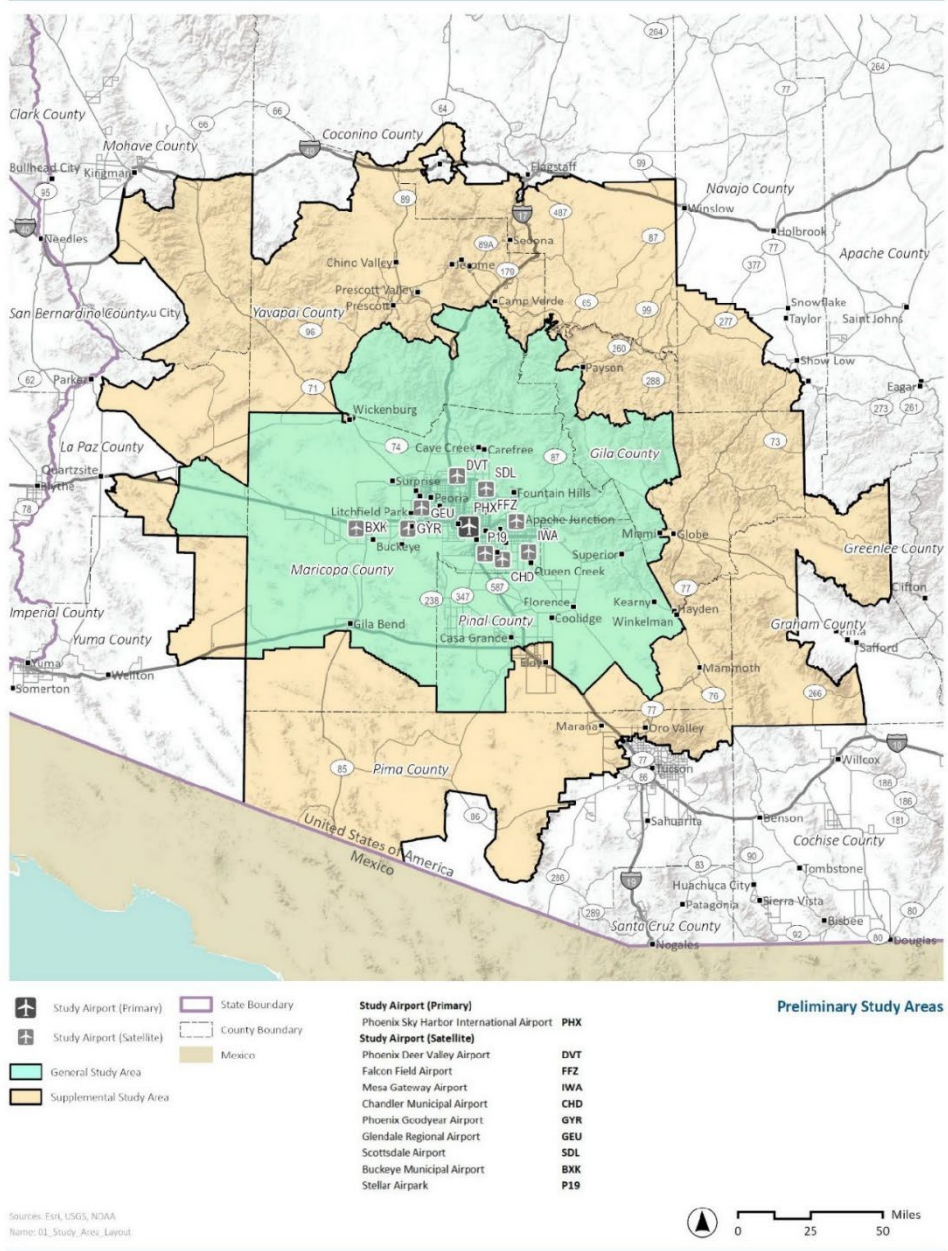

Christopher L. Southerland
Acting Director, Central Service Center
Air Traffic Organization

Subject: Early Coordination for the Phoenix Area FAA Modernization Project

Dear Stakeholder,

The Federal Aviation Administration (FAA) is initiating an Environmental Assessment (EA) for the Phoenix Area FAA Modernization Project. This effort will evaluate potential environmental impacts associated with changes to aircraft flight paths and altitudes in the region.

Please see the attached letter for additional details, including information on the study areas, process, and opportunities to provide timely feedback.

Thank you for your attention and participation.

Sincerely,
Federal Aviation Administration

Re: *Phoenix Area FAA Modernization Operations Project*

.....

The White Mountain Apache Tribe Historic Preservation Office appreciates receiving information on the project dated; November 20, 2025. In regard to this, please refer to the following statement(s) below;

Thank you for allowing the White Mountain Apache tribe the opportunity to review and respond to the above FAA proposed Phoenix Area FAA Modernization Project in Arizona.

Please be advised, we have reviewed the information provided and determined the proposed project plans will have a “*No Adverse Effect*” to the White Mountain Apache tribe’s cultural heritage resources and/or historic properties, however, we do not recommend proposed flights below 10,000 feet over federally recognized tribal lands, and suggest there be a hazardous treatment plan in place as well in case of an accidental plane crash on tribal lands.

Thank you for the continued tribal engagement and consultation, and collaborations in protecting and preserving places of cultural and historical importance.

Sincerely,

Mark Altaha

White Mountain Apache Tribe – THPO
Historic Preservation Office
