Jill,

I'll be on leave and miss the July 12 meeting. Below is my IOU for item f:

Sherri and Charlie,

Here is the process given to me by Airports. Let's give this to Hickok and tell him to start the process with his 20+ requests and for him to track the time it takes. Let's see if it takes days, weeks, or months. Then if it is not working, we can further discuss with NFDC.

Thoughts?

Thanks,  
Dez

<http://www.faa.gov/airports/central/engineering/part157/>

Central Region put together some good info.

Starts with the owner/consultant filing a 7480-1 with the Regional Office  
Regional Office evaluates surrounding airspace and makes an airspace determination  
Regional Office will send the airspace determination and a filled out 5010 form back to the owner

Owner reviews determination, signs 5010 form, and sends it back to the Regional Office  
Regional Office "packages" the original 7480-1, airspace determination, and owner-signed 5010 form and emails to us  
here in HQ.

We assign a SiteID.

The package and Site ID# are then sent via email to NFDC for LocID assignment and inclusion in NASR.

**Subject:** AISWG - Call for agenda items

Good Morning All,

Our next AISWG is scheduled for Tuesday, July 12. Attached are the minutes from the April meeting.

Please submit any agenda items to Carolyn Meushaw ([Carolyn.meushaw@faa.gov](mailto:Carolyn.meushaw@faa.gov)) and myself by 29 June so that we can  
get an agenda compiled and send out.

Thank you and please advise of any questions.
