

Publish Electronic Form of MVA Charts

Meeting 15-02

Jeff Lamphier, AJV-564, [provided an update](#) on the release of MVA charts in an electronic format. Jeff stated that MVA charts are available to the public via URL: https://www.faa.gov/air_traffic/flight_info/aeronav/digital_products/mva_mia/ in two formats, PDF and AIXM 5. The AIXM 5 files are to be published in conjunction with the PDF files for all future MVA/MIA projects.

John Collins, GA Pilot, inquired as to whether the AIXM files were georeferenced. Jeff responded that yes, the AIXM files are georeferenced and showed an example of how such files are coded.

Gary Fisk, AJV-82, asked if the release of these files is coordinated prior to public release. Jeff replied that all MVA/MIA files are fully coordinated with ATC and are not released until the effective date on which the new maps are implemented by the subject facility.
