

## CHAPTER 2 FORMAT AND LAYOUT

### 2.1 FORMAT

The DP procedure, including all textual or type data, shall be aligned normally with true north at the top of the page. Predominately extensive east-west procedures shall be depicted in a landscape format in which North shall be toward the left side of the page. In such cases, the text will be oriented consistent with the geographic procedure and a North arrow shall be shown. The arrow may be placed in any open space.

Figure 2.1 North Arrow

DP charts shall be arranged so that the planview of the procedure is shown in the upper portion of the chart with the remaining lower portion containing the textual description of the procedure. These sections will be separated by a 6 wt line, so that the textual description will be “boxed” as illustrated in [Appendix 5](#). The box size can be adjusted to accommodate the size of the description.

### 2.2 LAYOUT

Size and dimensions shall be as annotated in [Appendix 2](#) and [Appendix 3](#).

Information shall be presented in textual, tabulated and graphic form, normally printed to read parallel to the top edge of the publication.

Page Intentionally Left Blank
