## CHARTING NOTICE

Date: December 20, 2018  
To: Users of ADDS Open Data  
From: Aeronautical Information Services  
Subject: Addition of Clearance (OROCA) Information to Open Data

---

---

Aeronautical Information Services has provided greater public access to Clearance (Off Route Obstruction Clearance Altitude) information by adding this information to the existing Aeronautical Data Delivery Service (ADDS). The ADDS site provides the functionality to filter attributes and save industry standard formats. Information is also available as a service. The information will be updated every 56 days starting with the January 3, 2019 effective date. Data will be available as pending approximately 20 days prior to the effective date. The data and more details can be found at following link.
