CHARTING NOTICE

Date: December 7, 2020
To: Users of FAA Chart Supplement Publications
From: Aeronautical Information Services
Subject: Special Notices in Chart Supplement – Aeronautical Chart Bulletins
Discontinued

Beginning on December 31st, 2020 effective date, the Chart Supplement publications will no longer contain some of the Aeronautical Chart Bulletin entries listed within the Notices sections.

Starting February 25th, 2021, all publications previously identified in Aeronautical Chart Bulletins will be updated every 56 days to coincide with other Enroute, Terminal, and Supplemental chart products on established 56-Day Aeronautical Information Regulation and Control (AIRAC) dates.

Therefore, it will no longer be necessary to provide the Chart Bulletin information in the Chart Supplements since the purpose of the bulletins was providing major changes in aeronautical information that had occurred since the last publication date of that product.

For questions or comments, please contact 9-AWA-AJV-A2-Apt-MapTeam@faa.gov
