

Federal Aviation Administration

CHARTING NOTICE

Date: March 17, 2021
To: Users of FAA Chart Supplement Publications
From: Aeronautical Information Services
Subject: Special Notices in Chart Supplement – Crawford, TX P-49 and Tonopah
FAR Part 139

Starting with the August 12, 2021 effective date, the Chart Supplement South Central and Chart Supplement Southwest publications will remove specific entries within the Special Notices section.

These changes are in compliance with the Air Traffic Organization (ATO) AI/NOTAM Modernization Initiative. This initiative objective is to eliminate duplicative, redundant, and conflicting information used in flight planning and operations.

For questions or comments about this removal, please contact 9-AWA-AJV-A2-Apt-MapTeam@faa.gov

The entries being removed from the Special Notices section are shown below:

SOUTH CENTRAL U.S.

CRAWFORD, TEXAS

PROHIBITED AREA P-49, CRAWFORD, TEXAS

In response to a request from the United States Secret Service, the FAA has established a prohibited area over President George W. Bush's ranch in Crawford, Texas. The prohibited area extends from the SFC up to 2,000' MSL within a 2 NMR of lat. N31°34' 45", long. W97°32' 00" (ACT242R/15).

P-49 airspace is charted on the VFR sectional chart and this description can be found in the federal register at: <https://www.federalregister.gov/documents/2010/03/31/2010-7242/revision-of-prohibited-area-p-49-crawford-tx>

Prohibited Area information is available through the Federal Aviation Administration. Refer to the following publications for guidance on prohibited areas:

https://www.faa.gov/air_traffic/publications/

Aeronautical Information Manual (AIM)

Chapter 3. Airspace

Section 4. Special Use Airspace

Paragraph 3-4-2. Prohibited Areas
