CHARTING NOTICE

Date: May 20, 2019
To: Users of Digital Obstacle File (DOF) and the Daily DOF
From: Aeronautical Information Services
Subject: Remove of Dismantled Obstacles from the Daily DOF and DOF

Beginning September 8, 2019 for the Daily DOF, Daily CSV File, and beginning September 10, 2019 for the DOF, products will no longer contain dismantled obstacles. These are obstacles flagged with an action code of “D” for dismantled. This is direct response to obstacle data set customer feedback. This does not affect the DOF Change Files and weekly Construction Notice, which will continue to include obstacles that have been dismantled.
