

Federal Aviation Administration

SAFETY ALERT

Date: January 19, 2016
To: Users of the IFR Enroute High PDF and Geotif files (Charts H-10 & H-11)
From: Aeronautical Information Services
Subject: Overprint on Enroute H-10 and H-11 Files

The PDF and Geotif files for IFR Enroute High charts H-10 & H-11 have extraneous type overprinting the aeronautical chart information. If you obtained these files prior to 0900 EST January 19, 2016 the following files should not be used.

<u>File Name</u>	<u>Effective</u>
ENR_H10.tif	2/4/2016
ENR_H11.tif	2/4/2016
ENR_H10.pdf	2/4/2016
ENR_H11.pdf	2/4/2016

Revised files have been produced and are now available. If you downloaded the subject files prior to 0900 EST January 19, 2016, please download them again to obtain the revised files.
